## Testimonials

“After a century, the field of psychology has not found a personality classification system close to The Gentle Wind Project in self-evident, understandable, clarifying, and obviously valid characteristics.”

RT in Los Angeles, CA

“The new Trauma Card is truly amazing... the ability to forgive and move forward in life is, in this researchers opinion, the most valuable. Thank you Gentle Wind Project for your dedication in healing our individual and collective Souls.”

Ruth R. Molin, Ph.D. LMFT, LMHC

“While recently developing marketing materials for my consulting business, it occurred to me that by having Healing Instruments from The Gentle Wind Project available for my clients to use and benefit, I am able to offer clinical interventions with a 95% effectiveness rate, unheard of in the helping professions!”

Patricia Anne Shea, MSW, California

“My patients feel better with use of the Instruments. Patients respond faster to my treatments. I have noticed deep positive changes in people.”

Rebecca Anderson, DO (Osteopathic Physician).

“The dedicated work of the Gentle Wind Project has resulted in the health and healing of many individuals through mind, body and spirit which is truly an integrative approach for the future of healthcare.”

Cynthia Knorr-Mulder RNC, MSN, NP-C New Jersey USA

“I am a psychotherapist and I am used to making assessments of people. The Instruments reach deep seated, often life long, issues that have not fully responded to other forms of help.

They seem to melt the problems from the inside to the outside.”

Elizabeth Mellor, BSW, Seymour, Australia

“I wholeheartedly recommend that my colleagues investigate the use of this wonderful modality.”

Jack Fong, DDS, NMD

“I am a nurse and for over 3 years have shared The Gentle Wind Project Instruments with over 1200 people. I have been in health care, including holistic therapies for 25 years and have never seen such quick, reproducible positive changes in mental/emotional well-being, relief of brutal emotional trauma, relief from deep grief of loss through death, the dropping of habits that are destructive like smoking, alcohol and drugs - and many other positive changes. Nothing, regardless of promises, high prices, side effects or studies, have I seen create such positive changes without cost or side effects. This is way beyond the placebo

effect!”

Pam Fry, RN

Friday Harbor, WA “Over the years I have shared Instruments with over 600 people; patients in my medical practice, students and friends. I have witnessed remarkable changes in many of these people from the releasing of emotional traumas to the alleviation of life long physical pain.”

“I thank you again for the work and dedication you have put into the project and the gift of healing you have bestowed on so many of us.”

Jeri Mills, M.D.

Loveland, CO
